To General Director MOD SKT

Vyacheslav Kozhemyaka

14.6.2019., Zagreb

Dear Vyacheslav,

The Croatian Association of Clubs of Alcoholics in Treatment (HSKLA) expresses its support and willingness to cooperate with your organization.

We highly appreciate the contribution of your organization to the establishment of fruitful cooperation between preventive programs helping people with addictive behavior in different countries and the development of the family club movement in Russia. Your organization carries out a wide range of activities which have positive effect on people with addictive behaviors. Representatives of MOD SKT repeatedly became guests of HSKLA, participated in scientific conferences and anti-alcohol school in Croatia, there are publications of the MOD SKT team in scientific journals of our association.

Moreover, a representative of MOD SKT has been a member of the Executive Committee of the WACAT (World Association of Clubs of Alcoholics in Treatment) since 2016. Leaders of the MOD SKT participated in international meetings and conferences where they exchange experience in the family recovery program.

In 2016 and 2017, major scientific conferences were held in Moscow, in which members of the international community WACAT and the head of HSKLA took part. HSKLA specialists regularly take part in the work of the School for the Servant-Teachers of Family Sobriety Clubs in Moscow.

We got acquainted with your project "Create your own sobriety territory", which you plan to carry out with the support of the Moscow Mayor Grant. We express support for your project and are ready to participate in its implementation, if necessary.

We wish you every success and warmly welcome you.

With kind regards,
